

VOLUNTEER APPLICATION

The Temora Aviation Museum is proud to have a Volunteer Program that comprises of a wonderful team of people who generously give their time to assist in various areas of the Museum.

The most important role of a Volunteer is to help visitors enjoy their time at the Museum by demonstrating a friendly and courteous disposition.

TAM's Volunteers are expected to stay familiar with the Museum's operations, keeping up with any changes and expand their knowledge of the 100SQN Aircraft, existing and current programs, and any upcoming events.

The Museum offers guided tours with our Volunteers to give our visitors the opportunity to learn about the Museum's aircraft & facilities. Volunteers can also assist in the gift shop, café, help with maintaining the museum archives, social media & photography.

Volunteers assist every day in the Museum, with the option of full or half day shifts, and many more Volunteers help on our Showcase Flying Days in various roles.

The Museum's aircraft are airworthy and are maintained by the Museum's Engineering staff.

Successful volunteer applicants will undertake a trial period and attend training and an induction session here at the Museum before they commence.
